

# LAJI GEORGE

## BIOGRAPHY

Laji George is a musician and singer-songwriter whose visceral sound bridges the heavy, textured dynamics of alternative rock and the vulnerable introspection of classic acoustic storytelling. Heavily influenced by the timeless legacies of icons like Soundgarden, Chris Cornell, Pearl Jam, Nirvana, and The Beatles, Laji constructs music as a powerful vessel for deep human connection, healing, and unity.

His creative process is completely organic: capturing raw, unfiltered song ideas as scratch recordings on an acoustic guitar or piano. Moving from massive festival stages like Summerfest with his band Pseutopia to the high-end warmth of Jonah Brockman Studios, Laji preserves the unvarnished, true human heartbeat of a performance over digital perfection. His upcoming debut solo album, *Out of Line*, stands as an uncompromising declaration of resilience and survival.

## CORE RELEASES & PROJECTS

### CORE RELEASES & PROJECTS

"Out of Line" (Upcoming Debut Solo Album): A front-to-back dynamic alternative rock journey exploring isolation, light beneath gray skies, and emotional catharsis.

- **"This Is My World" (Single & Video):**

The album's powerful third single—an acoustic-driven track that explodes into a massive anthem of resilience.
